Our mission

To provide high-quality auditing and consulting services, integrating innovative solutions based on new technologies. We support our clients to navigate the blockchain and crypto-assets ecosystem, enabling them to exploit the enormous potential of this revolutionary technology at its full capacity.

At RSM France, innovation, integrity and excellence are at the heart of our firm values. We strongly believe in the power of blockchain technology to transform business, foster transparency and drive sustainable growth for our clients.

Our team

Expertise to serve our clients

Lead by **Virginie Cuvilliez, Audit IT Partner**, our blockchain team is made up of specialists in their respective fields, mainly in **accounting, auditing and consulting**. They have specific skills linked to the blockchain ecosystem, gained through training and experience focusing on blockchain and crypto assets. Regulatory compliance, cybersecurity, forensic financial audits, technology audits, accounting and tax audits. Whatever your needs, our experts can help you build your project!

Virginie Cuvilliez

Audit IT Partner – Financial Services

Virginie is specialized in IT risks, cybersecurity and digital, and coordinates the implementation of IT projects and IT audits. She has in-depth expertise in blockchain security and smart contracts and algorithms auditing. She also leads RSM's blockchain offering.

With more than 20 years of experience in audit and consulting, she has worked for the High Audit Authority on CAC 40 mandates. She is also President of the ISACA AFAI, a notable association driving a more trustworthy digital world.

A highly experienced team

Ratana Lyvong

Audit Partner
RSM France

Ratana has more than 15 years' experience in financial auditing with generalist banks, specialist banks, fintech companies and payment institutions.

Bertrand Dufour

Chartered Accountant Partner
RSM France

An accountant specializing in supporting growing technology companies, he has developed specific expertise in the areas of organization, financing, and international development.

Benoît Courtois

Blockchain Director
RSM France

Benoît is a blockchain specialist and former auditor of financial companies. He has over 15 years' experience in finance (auditing and consulting) and blockchain.

Guillaume Daniere

Consolidation Manager
RSM France

With several years' experience as an international auditor, Guillaume is a consolidator 3.0: he intervenes on blockchain trainings, data project management, and compliance with international accounting standards.

Elodie Disson

Chartered Accountant Manager
RSM France

Elodie has 12 years of experience in chartered accountancy and asset, management. She assists managers with tax, accounting and legal issues relating to crypto assets.

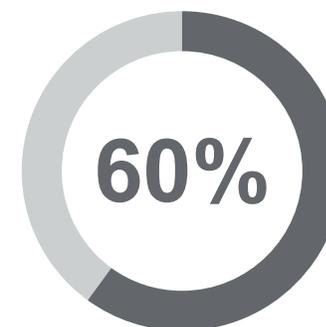

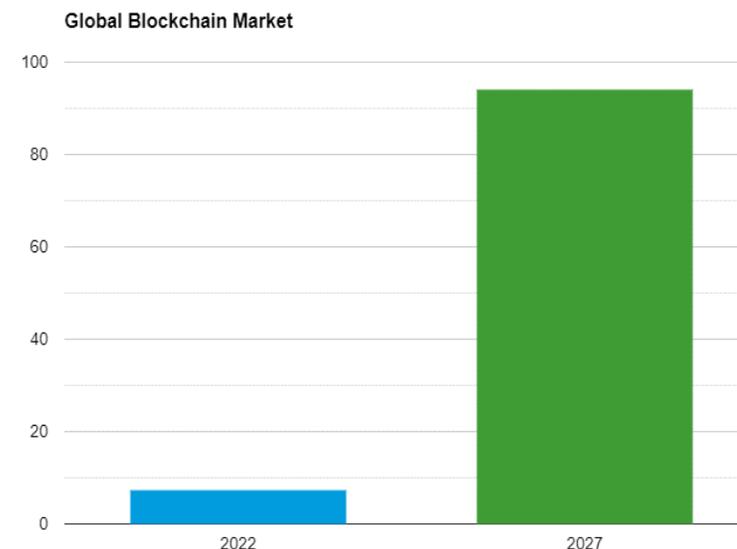

The market

A fast-growing market

- Marked by a growing adoption in many sectors, blockchain technology offers significant growth prospects. This development unlocks new economic opportunities, making blockchain **a key technology for the future of commercial transactions and operations.**
- Beyond crypto assets, blockchain technology is revolutionizing traditional methods of asset and contract management. This evolution offers RSM clients a unique opportunity to **position themselves at the forefront of innovation** and digital security.

New challenges and opportunities

- Adopting blockchain isn't just a matter of keeping up with innovation; it's an imperative **to stand out and flourish in an increasingly competitive environment.**
- Integrating blockchain into your operational strategy enables you to offer even more innovative services, improve the efficiency of your internal processes and **position yourself as a leader in your industry.**
- Securing technology and complying with increasingly stringent regulations (**such as PSAN, MiCA, AML5 registration and approval**) also represent a major challenge. It is essential to anticipate compliance to ensure the long-term future of your business.

Our support

Our solutions

01

Customized expertise

We offer specialized and customized audit, accounting and consulting expertise, tailored to the unique needs of each client. Our dedicated blockchain team combines in-depth knowledge with an innovative approach to meet the ecosystem's specific challenges.

02

Reinforcing knowledge

Strengthening our clients' knowledge of blockchain is paramount. Through training courses, webinars and educational resources, we give our clients the tools they need to understand and harness the true potential of this revolutionary technology.

03

Transition support

We stand by our clients to support them in their digital transition. Our blockchain department helps our clients to integrate blockchain technology into their operations, ensuring a transition that is secure, efficient and in line with current market trends.

Our services

Accounting expertise:

- Accounting and financial reporting for companies integrating blockchain.
- Advice on financial management and accounting for cryptocurrency transactions.

Legal and financial audit:

- Statutory audit of companies in the blockchain ecosystem.
- Audit and valuation of digital assets.

Cybersecurity and technical audit:

- Source code review, audit of smart contracts and AI.
- Analysis of cybersecurity issues, review of transactions and processes, review of KYC/KYB processes.

Risk and compliance:

- Compliance with AML regulations, realization of SOC reports to secure third parties.
- KYC/KYB compliance and auditing.

Support and project management:

- Setting up project strategies and assisting in the development of blockchain solutions.
- Training and awareness: training programs on blockchain technology and its potential applications and implications.

Our blockchain solution

CLEARthru™: blockchain traceability solution

- RSM has developed the first ERP-based blockchain traceability solution that brings consumers the best information on supply chain integrity, safety and product source tracking. Relying on blockchain technology, [CLEARthru™](#) provides access to information on the entire value chain in a matter of seconds.
- With direct ERP system integration through Hyperledger blockchain technology, [CLEARthru™](#) enables food and beverage manufacturers, distributors and retailers to code, track and trace food and beverage items starting directly at the field, processing facility or packaging plant level – and, in turn, make this data easily accessible to consumers.

Our certifications

Our consultants train continuously and have the best certifications on the market to support you along your transformation journey.

www.rsmfrance.fr

RSM France is a member of the international RSM network. Each member of the network is an independent auditing, accounting and consulting firm operating on its own account. The RSM network itself is not a legal entity in its own right. It is managed by RSM International Limited, a company registered in England and Wales (number 4040598) with its registered office at 50 Cannon Street, London EC4N6JJ, United Kingdom. The RSM brand and all intellectual property rights used by network members are the property of RSM International Association, an association governed by Articles 60 et seq. of the Swiss Civil Code, with headquarters in Zug. RSM International Association, 2025.
